Growing Agile

# EXERCISE

- Stand up if you've ever read a requirements document.
- Keep standing if you read all of them cover to cover.

# Shared understanding

over  
signed off  
requirements

The most efficient and effective method of conveying information to and within a development team is face-to-face conversation.

Backlog Grooming  
(with whole team)

Facilitate  
Discussion

# User Advocacy

over  
contractual  
deliverables

Business people and  
developers must  
work together daily  
throughout the project.

# ★ UX techniques

prototypes

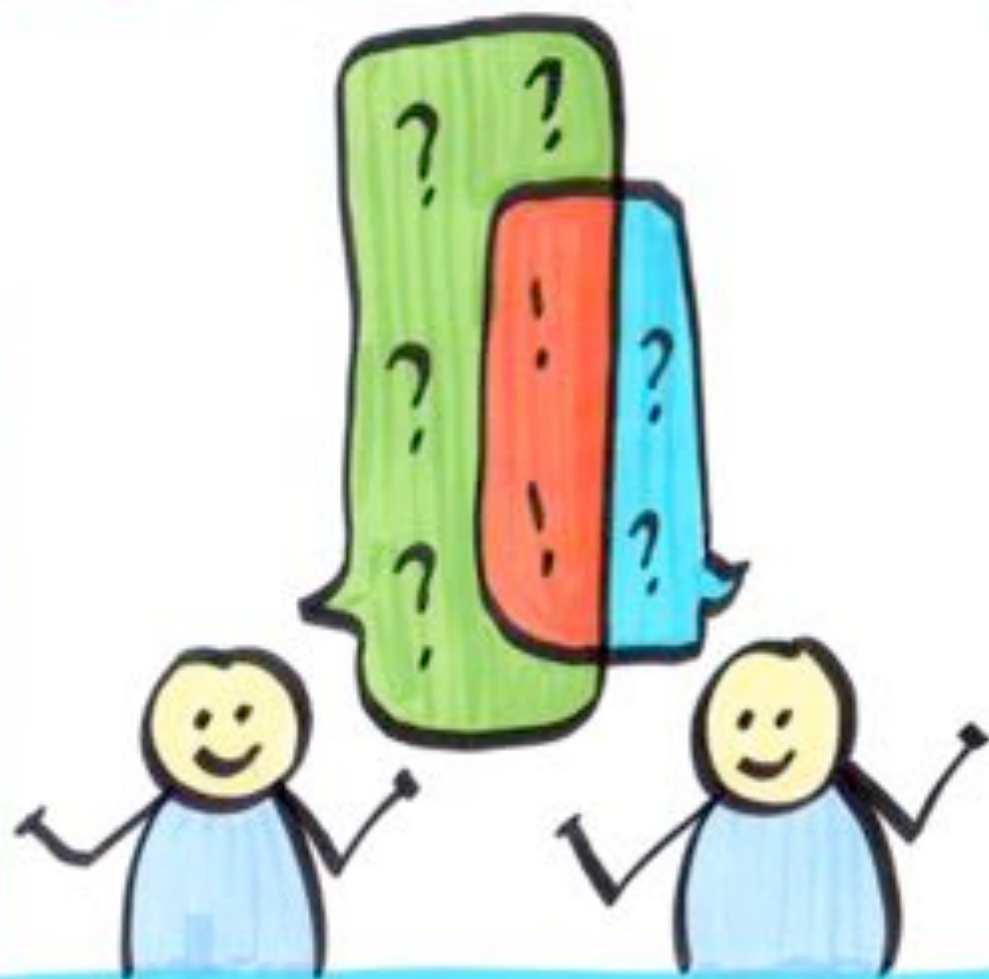

interviews

personas

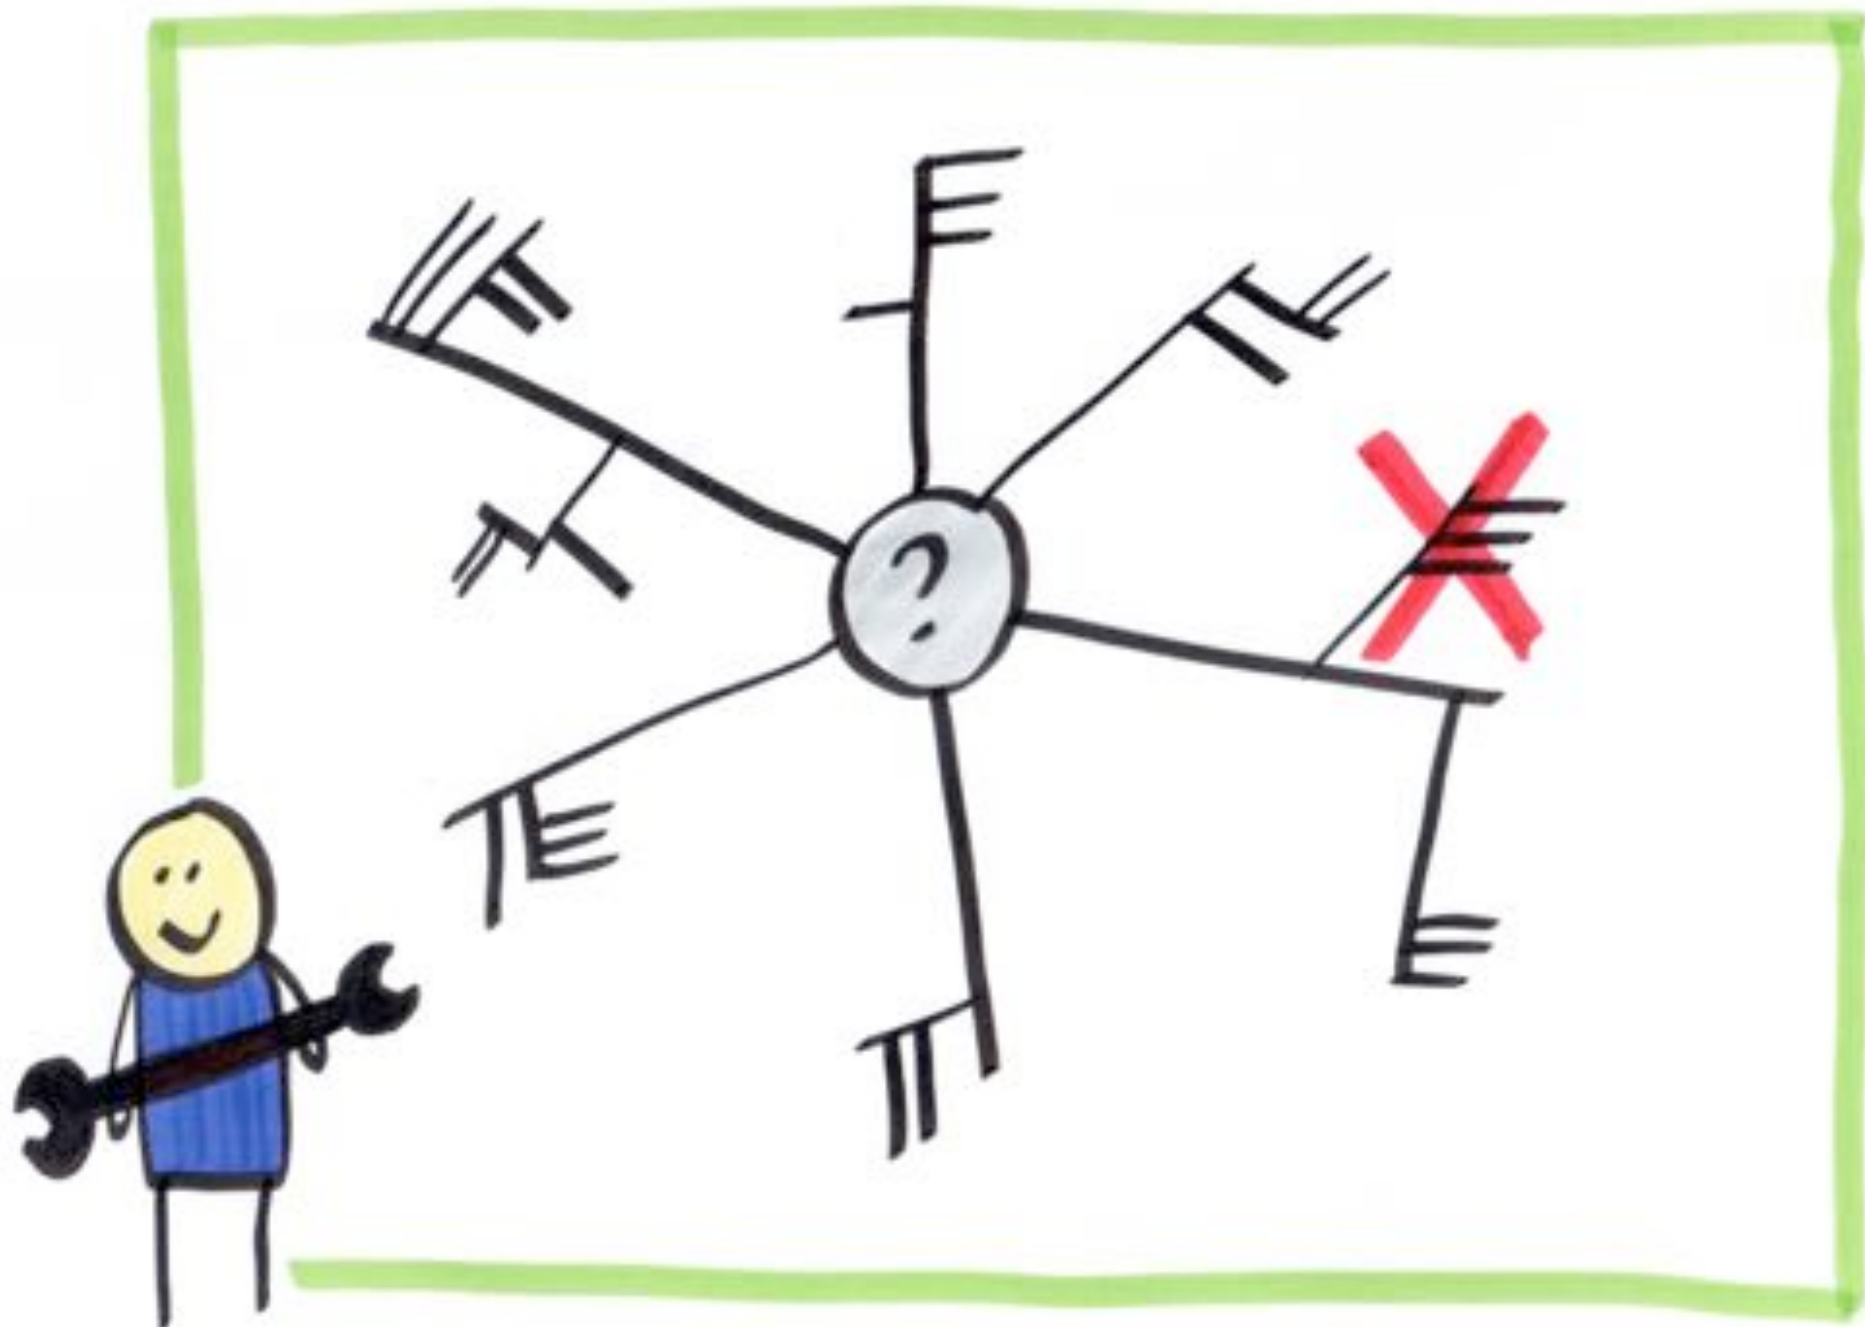

# Problem Exploration

over  
solution  
design

The best architectures,  
requirements, and  
designs emerge from  
self-organizing teams.

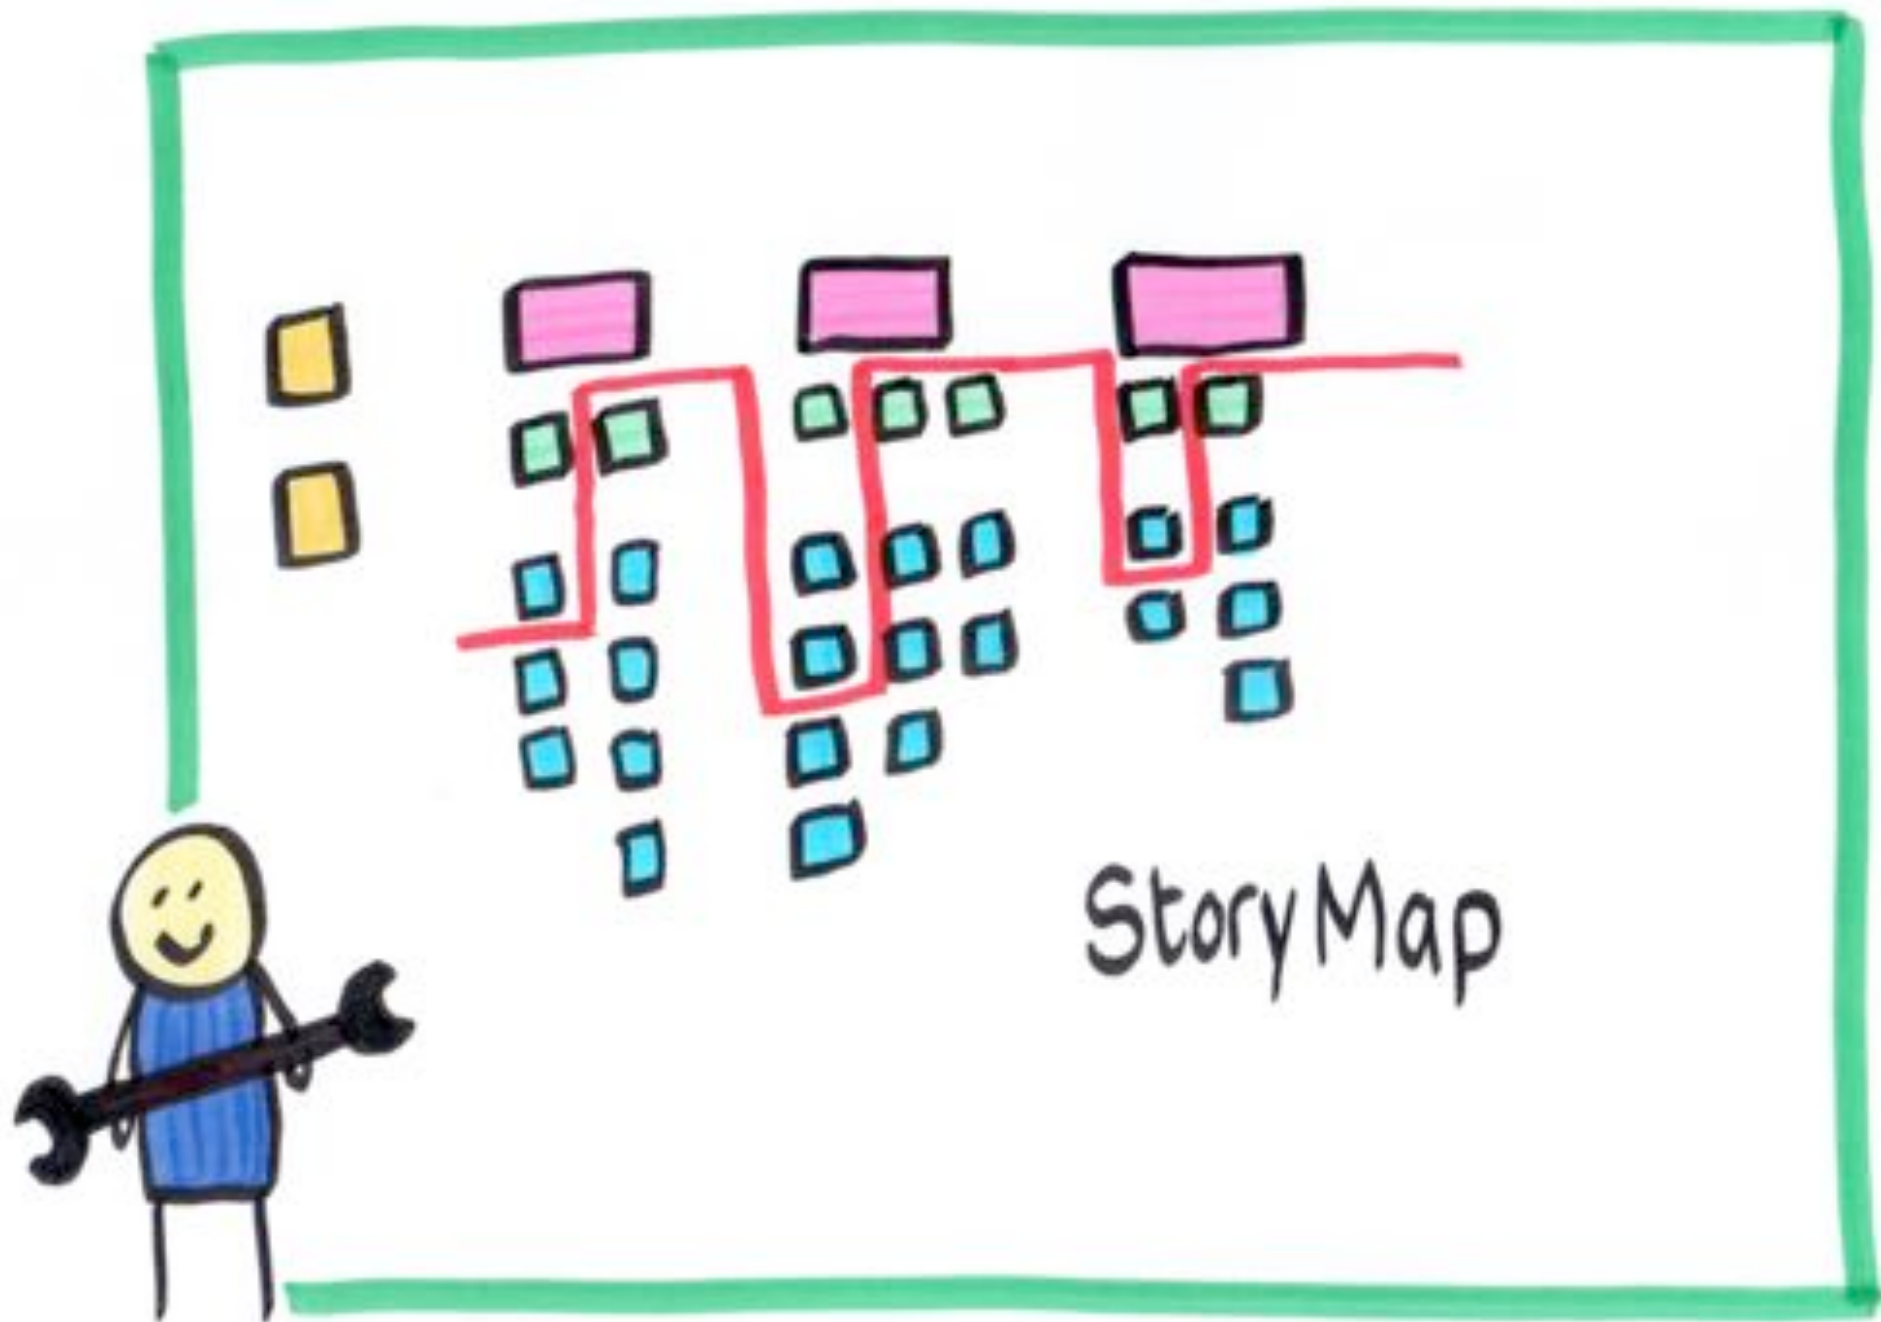

# Useful Documentation

over  
complete  
specifications

Simplicity -- the art of  
maximizing the amount  
of work not done --  
is essential.

Story Map

# Embracing Ambiguity

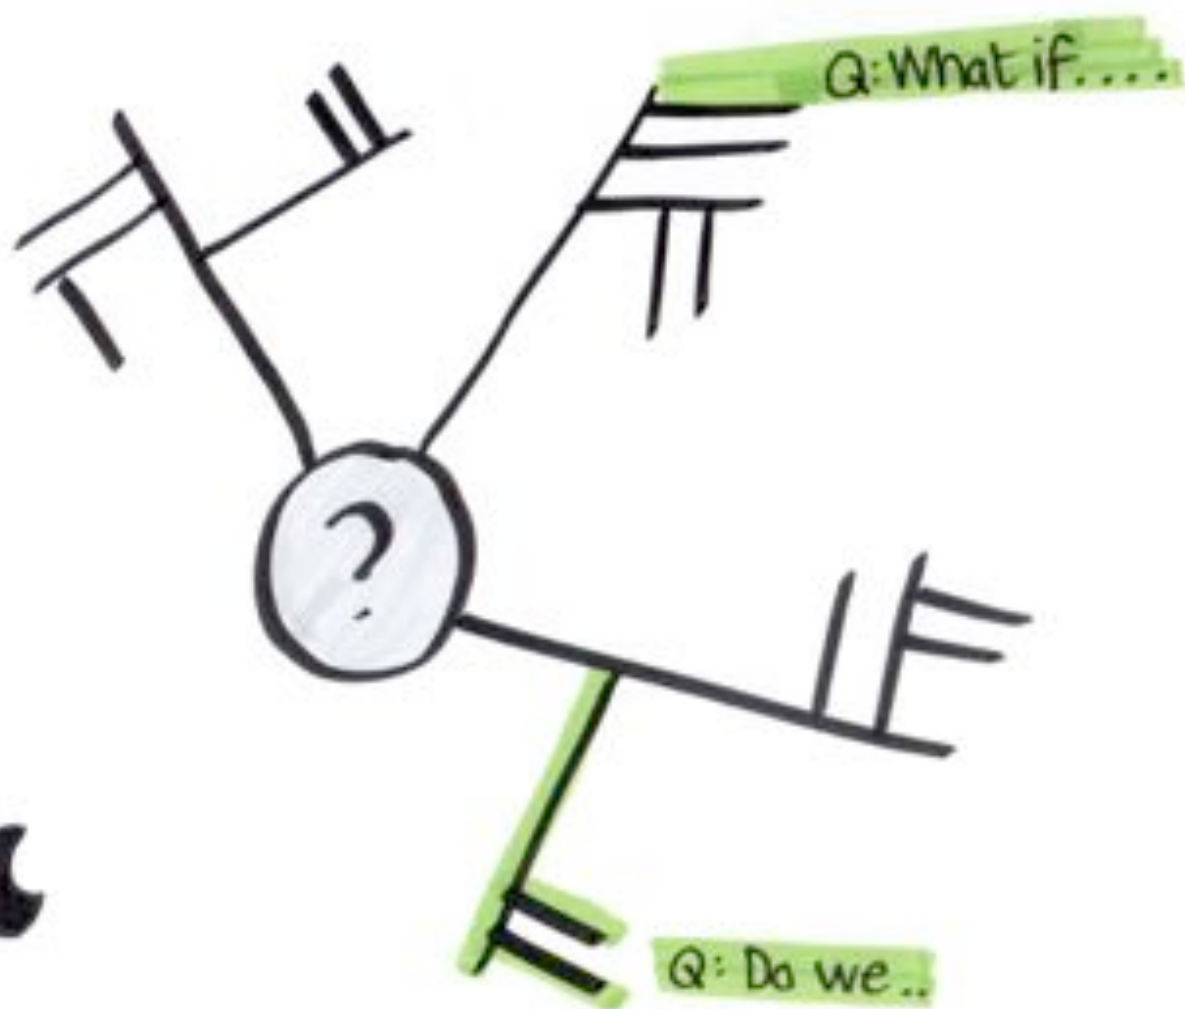

over  
premature  
details

Welcome changing requirements,  
even late in development. Agile  
processes harness change for  
the customer's competitive  
advantage.

Q: What if....

Q: Do we..
